

# Burr Wing parking effective September 29, 2008

- Lower George Street is closed from O'Kill Street to King Street, in support of hospital redevelopment.
- Designated "clinic" parking for cancer centre and Burr wing dialysis patients has moved to the upper part of George Street to the paved GIDRU parking area. There is an entrance to the hospital from that covered parking area.
- Upper George Street will remain open with normal traffic flow to O'Kill and then onto Barrie Street.
- The circular patient drop-off area along George Street is closed, and the George Street entrance to the Burr Wing functions as an emergency exit only.

**Watch signs in the area for details.**
