

Intensive Care Unit

Davies, FAPC & Kidd '2'

Overview:

- Complete renovation & expansion from 21 to 33 beds
- Technology improvements built into program

What's Happening (Highlights only):

- Phase 1 – FAPC 2 clinics are moved and construction of new ICU area begins
- Phase 2 – Some existing ICU beds move to new area and renovation begins
- Phase 3 – In-centre dialysis unit moves from Davies 2 to Burr 3 and construction of ICU administrative area begins
- Phase 4 – Temporary waiting and equipment storage areas arranged and waiting room built

Benefits:

- Improved access to care for the region's sickest patients
- Better design to support family involvement and to preserve dignity of families and patients
- Additional space to support education of health care providers
